

**Siraj Mayet**  
**Chair of Batley Multi Academy Trust (BMAT)**  
**Attendee at BMAT Outcomes Sub-Committee**

I passionately believe that high quality education can substantially enhance future prospects of our young people and leads to the betterment of our society as a whole. Having benefited from local education myself and experiencing my three children going through the same, I am fully committed to ensuring our local education is the best that it can be and works collaboratively to provide exceptional outcomes for all young people in our local community.

I have over 20 years of experience of running and being involved with a range of activities to support young people to realise their full potential. This includes being a school Governor at a local primary; board member at Huddersfield New College; managing training programmes such as positive action training and apprenticeships and running youth club activities.

In addition to this, I have worked with businesses, colleges and universities on various employment and education initiatives. I have experience of applying for and managing externally funded projects, including Single Regeneration Budget and European funded projects.

I have experience of liaising with Education and Skills Funding Agency contacts. I have also represented my employer on strategic boards such Adult Education Learning Trust.

In the past, I have been elected as a Trustee at a local community organisation with a charity status and served as an office bearer for three years as General Secretary.

My qualifications comprise a BA (Hons) in Economics & Public Policy, Post Graduate Certificate in Management & ILM level 5 in Coaching & Mentoring. I have experience of managing and coaching staff.
